Subject: Few topics for discussion at my General

Jan et al.,

See you soon in my General. Topics for discussion are below:

Frank will join for the discussion on 2,4-D PID mitigation approaches/update

New Chemicals:

- a. **Metamitron: Adama's fruit thinner**
 - i. NCS complete; no showstoppers identified
- b. **S-3100: Valent's herbicide - Epyrifenacil**
 - i. NCS from contractor expected on 3/31/22
- c. **SABA-10: MGK insecticide**
 - i. ERB6 is the new home
 - ii. Handed over the NC package and DERs we are finalizing last Wed
- d. **Broflanilide:** briefing for Ed on potential PFAS concerns/proposed new uses
 - i. Team meeting to discuss this and work on slides on 4/4
 - ii. We initially contemplated on broflanilide being a PFAS compound but decided against the designation due to its ring structure; PFAS compounds are usually aliphatic long chain fluorinated compounds but broflanilide (though has 11 fluorines) and its degradation products are ring structures

2. Old chemicals: Notable PIDs/IDs:

- a. **Fipronil: Q3 PID**
 - i. Chronic GW concerns; refined EDWCs using SSD/2 m depth
 - ii. Mitigation meetings with Fipronil Task Force (FTF) completed last week
 1. Proposed mitigation is restriction of termiticide use to one full treatment every 5 years and cancelation of all pet spot-on uses
 - iii. Fipronil Task Force indicated to Ed they need more time to digest the mitigations and their plan to provide additional information to consider in our exposure assessments.
 - iv. PID pushed back a quarter now; PRD asked us to hold off on signing the revised DWA
- b. **2,4-D: Q4 PID now**
 - i. Mitigation discussions with Task Force in June; briefings up July/August

3. Neonics BEs – JAM analysis

- i. JAM analysis for review early May
- ii. JAM Status update

4. Pollinator Team Activity:

- a. **Manuscript on honeybee retrospective data analysis**
 - i. Waiting on the invoice from PLoS One

5. Miscellaneous:

- a. Invited Nathan Mellor to ERB1 virtual office hours (on 4/5) to discuss reduced risk process

6. ERB1 Staff-related:

- a. **GS-14 Detail:** Koper
- b. **Local SETAC meeting** – Rebecca and Gary

7. Return to office: ERB1 status update
